RQ-122 - 8 ounces, coarse roulette, “Series of 1971”, on a 4” dia. x 4”one pound can of
Club Chewing Tobacco by “Imperial Tobacco Products”, Montreal.
An interesting use of a pair of 8 ounce strips coded 10D-6 / 48 from October 1973.

These ***are not the self-adhesive*** gum **RQ-122a**, but are printed normally on gum-free paper.

Only the translucent plastic *snap-on* lid remains. This was originally placed on the can bottom, and was transferred upon opening the can, after the top was removed.
